DEEPAK KUMAR – Full Stack Developer

New Delhi, India | +91 8808994460 | ☐ dpk.developer04@gmail.com | ◎LinkedIn | ◎ GitHub | ◎ Portfolio

SUMMARY

Full Stack Developer with around 1 year of experience building responsive and scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing reusable UI components, optimizing performance, and implementing real-time features using RTK Query and modern frontend practices. Eager to contribute to full-stack teams and deliver high-quality user experiences.

TECHNICAL SKILLS: -

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Typescript, Redux Toolkit, RTK Query, TanStack Query, GSAP
Backend: Node.js, Express.js, REST APIs, Socket.IO, JWT Authentication
Database: MongoDB, Mongoose, Microsoft SQL Server
Tools & Others: Git, GitHub, Postman, Vercel / Netlify Deployment, Responsive UI Design

PROFESSIONAL EXPERIENCE

DEEPNAP SOFTECH (Frontend *Developer*)   **Faridabad, India**
                                                              April 2025 – Present

Developed a fully responsive web application with custom UI components, implementing front-end logic to handle dynamic workflows and optimizing performance for a seamless user experience.

Ticket Management System
- Developed a fully responsive Ticket Management System using React, Tailwind CSS, and RTK Query.
- Implemented workflows for task handling, ticket updates, scheduling, and real-time UI refresh.
- Created reusable components (tables, forms, modals) improving frontend speed & maintainability.
- Optimized performance by reducing re-renders and restructuring components for faster load time.
- Integrated secure API communication and automatic caching for a seamless user experience.

B2B Production Automation Platform
- Built frontend features for inventory tracking, production scheduling, and order management.
- Implemented complex business logic for role-based dashboards (Admin, Manager, Staff).
- Integrated backend APIs using RTK Query for real-time data consistency and smooth workflows.
- Designed responsive dashboard layouts improving efficiency for business users.

PERSONAL PROJECTN

- **AI Chat Interface (React + Gemini API)** - A responsive AI-powered chat interface developed with React and Gemini API, designed with real-time message interaction, clean UI flow, and seamless deployment on Vercel for fast performance and accessibility.

- **Animate-X (GSAP Animation Website)** - A fully responsive animation website built using React and GSAP, featuring smooth motion effects, scroll-based animations, and modern transitions. Focused on delivering a visually rich experience with optimized performance and Vercel deployment.

EDUCATION

BCA (GENERAL), Amity University Online, Noida, Uttar Pradesh   Jun 2022 – Feb 2025

CERTIFICATION

Job Ready Cohort – Full Stack Development
Sheryians Coding School — (Full Stack Developer, DSA Basics)   Jan 2025
